

KZNPI PARTNERS

We are so grateful to all the individuals, companies and organizations that support us in various ways.

Brett van den Broeck of Dorna Distributors has been a valuable board member of the KZNPI for several years, and we gratefully rely on his practical expertise and poultry knowledge, which he freely gives. The KZNPI is very proud to have a fully automated climate-controlled broiler house, made possible through funding from the World Poultry Foundation and equipped with funding from Fancom, facilitated by Brett. This has made it possible for delegates to be exposed to a variety of systems for rearing broilers, as we also have open-sided houses. We are therefore able to train and provide hands-on practical experience for delegates. The house has already proved to be useful in training at the KZNPI, where delegates, who have not previously been exposed to such a house, have been amazed.
