

## Practical Broiler Production Course

The World Poultry Foundation graciously subsidised 13 people on 5-day course, from 1 to 5 March 2021. The course covered the basics of broiler production including management tasks and calculations. A large component of the course consisted of practical's on our training farm. These included:

washing and disinfecting broiler sheds

Placing day old broilers

Biosecurity checks

vaccinations

The course was facilitated by our farm manager, Lindelihle Nxumale, and we were fortunate to have a group of industry experts who added their expertise. We are grateful to Edwin Nzimande (Avipharm), Lindani Nkwanyana (Meadow Feeds), Brett van den Broeck (Dorna Distributors) and Dr Charity Sibanda (retired veterinarian).
