

## KZNPI PARTNERS

We are so grateful to all the individuals, companies and organizations that support us in various ways.

We are so fortunate to have a link with the World Poultry Foundation and are very grateful for the support they have provided. This has included improvements to the training farm as well as funding delegates to attend our training courses.

Improvements include a new biosecurity block to allow delegates to shower-in faster for the practical sessions on the farm, a new feed store, egg store and extension of the hatchery as well as a new fully environmentally controlled broiler house, all of which have greatly improved the training that we can offer.

To date the WPF have sponsored over 400 delegates to attend various courses, both online and at the KZNPI, which will continue into 2021.
